### PRICES

This catalog supersedes previous catalogs and price lists. The factory reserves the right to correct pricing errors in the catalog.

Pricing is based on current market rates of metals used to produce emblematic products. Precious metals fluctuate directly with prevailing market rates at date of order. See explanation of pricing fluctuations on pages 4-5. Emblems produced in non-precious metals are priced at the present market rates of brass and copper. Historically the cost of these metals has been stable. However, in the past year a significant increase in market price has been experienced as demand of metals has exceeded supply. If market pricing for these metals continues to increase at a significant rate, the factory reserves the right to adjust pricing during the year to reflect increases in raw materials cost.
